

COLOURED MASTERBATCH  
FOR THERMOPLASTICS

## MANUFACTURING FACILITIES

In 2020 Prisma Colour relocated to a purpose-built factory located in the High Peak to support the continued growth and expansion of the business. Created in 1991 Prisma Colour Ltd has grown into a global supplier of masterbatch with a diverse range of products available for all industries and applications. The Facility has 12 compounding lines giving flexibility to supply our partners across the globe with masterbatch for all polymer types. Products are available from a standard range and can also be customised to end users requirements.

### Carriers available include: -

- LDPE
- LLDPE
- PPHP
- PPCP
- HDPE
- NYLON
- PET
- EVA
- TPU
- PLA
- GPPS
- SAN
- ACETAL
- ACRYLIC
- HIPS
- PC

## STATE OF THE ART R&D FACILITIES

Our production facility is supported by a brand-new R&D facility. Our equipment portfolio includes the following:

- 6 Boy 22S Injection Moulders
- 2 Accelerated Weathering Cabinets
- FTIR
- Filter Pressure Value
- Fibre Extrusion Line
- Blown Film Line
- Moisture Balance
- 3 Twin Screw Compounders
- 2 Roll Mills
- Melt Flow Index
- Impact Testing
- Digital Microscope
- 2 x Spectrophotometer
- Furnace

## QUALITY ASSURANCE

We focus on working closely with our customers to define individual needs and specifications. Our laboratory staff have extensive training and experience to ensure batch to batch repeatability against these standards. Prisma Group facilities are all accredited to ISO 9001.

## PRODUCT STEWARDSHIP

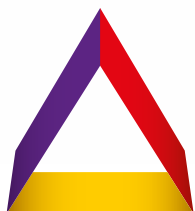

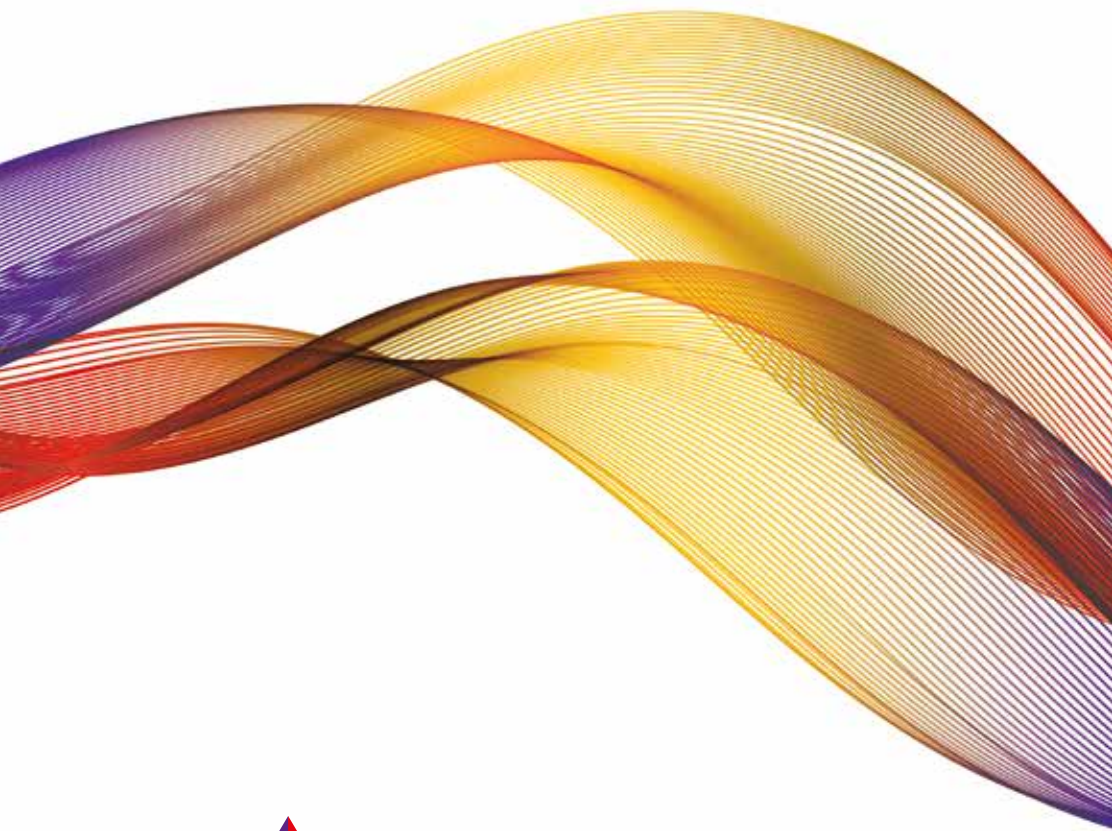

The compliance team are constantly reviewing changes in legislation.

Typical standards our products are used for include:

- 10/2011
- AP89
- International food standards
- REACH
- ROHS
- EN71
- Pharmacopeia
